English Holiday Programme

Globalization, frequent flights and affordable airfares make it possible for language learners to travel to Malaysia for both cross cultural as well as English language learning experience. Modelled after UCSI University's English Enrichment Programme, this is a short, intensive programme for visitors on social visit to learn English while in Malaysia.

Through this programme students will be able to practise their usage of spoken and written English as well as to participate in various activities organized to complement their learning experience. 3. *Course outline*

The course aims to develop students' fluency and accuracy when communicating in English by focusing on the application of the language (listening comprehension, speaking, reading comprehension, and writing).

This is done by exploring various contexts where English is used in formal and informal social situations. A practical approach will be used where students will be engaged in various context in which target language will be introduced and applied, along with structure and vocabulary.

Before students join our classes, they are carefully assessed by means of a placement test, so that the appropriate level of study may be assigned to them. Our courses progress through ten levels of academic study from 'Beginner 1' to 'Upper-Intermediate 2'. Within each level, students are tested by various methods in order to provide a system of monitoring student progress and eligibility for progression to the next level of study.

The table below clearly explains the levels that are offered under the English Holiday Programme.
