EXTRACT from Notes:
“Since the launch of the Economic Transformation Programme (ETP) two years ago, we have been making huge economic strides...."

“The ETP in itself is a subset of the New Economic Model. Together with the Government Transformation Programme (GTP), it forms a groundbreaking plan to propel Malaysia towards a developed nation status.”

A Note from The Prime Minister

“We are well on our way towards creating an environment of academic excellence in Malaysia, and 2012 has been a year of great achievements.”

A Note from The Minister of Higher Education

EXTRACT from Entry Point Projects (EPP):

EPP8: Building a Health Science Education Discipline Cluster

Established in 2010, this EPP targets to establish a cluster of institutions and industry players to increase the quality and number of healthcare professionals in Malaysia and Southeast Asia.....

As part of this EPP, the UCSI Premium Health Cluster initiative in Bandar Springhill has included the development of a teaching hospital to provide practicum for health science students.

The Premium Health Cluster encompasses a four phase development: Teaching hospital, international school, medical faculty and convention centre. The UCSI International School commenced operations in September 2012 and offers International Baccalaureate programmes for primary and diploma levels.

EPP10: Building a Hospitality and Tourism Cluster

This EPP plans to increase the annual output of hospitality workers to 50,000 people by 2020, more than double from 20,000 people in 2009.

Since its official launch in August 2011, the Malaysia Centre for Tourism and Hospitality Education (MyCenTHE) has been the champion of this EPP by aggressively promoting its work-based learning programmes.....the Sarawak cluster managed by UCSI University ..... has been in operations since May 2011.

By 2015, the target is to have 10 clusters with each cluster with an average enrolment of 3,000 students.
