Reading medicine was once a dream to Hau Sen. UCSI helped make it a reality.

By providing an exhilarating learning environment, UCSI helped Hau Sen realise his potential. He gained new insights. He gained confidence. He gained an unforgettable social experience.

Hau Sen’s A-Level results – which include a 600 / 600 score in Physics – are stellar. Today, he pursues his childhood dream of being a doctor. And after his pre-university experience, there was only one clear option for med school: UCSI University.

One day, Hau Sen’s dream will save lives. We’re glad to be part of his story - every step of the way.
