

UCSI gives away RM5m yearly

AS the demand for places in higher education institutions increases, competition for places will escalate and this will result in a gap between the haves and the have nots.

UCSI University seeks to fill this gap by providing scholarships worth more than RM5 million yearly. The UCSI University Foundation provides a centralised and dedicated office to administer and raise funds to achieve the university's goals of providing scholarships and research grants to deserving students.

It also works with the UCSI University Alumni and other groups to organise activities and events to generate funds for the foundation.

Scholarships administered by the foundation include the Tan Sri Ahmad Razali Merit Scholarship Award, UCSI University Founda-

tion Scholarship, UCSI University Foundation A-Level Scholarship and the UCSI University Foundation Sports Bursary for students who excel in sports.

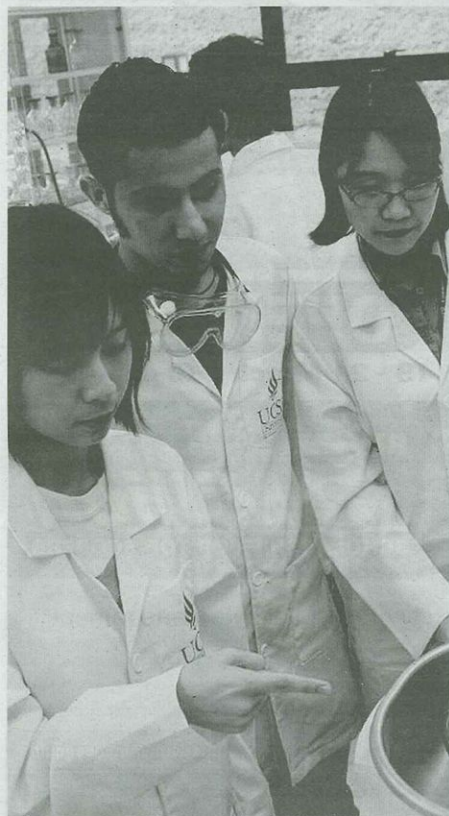

Scholarships are also offered to pharmacy and medicine degree programmes students who excel in the UCSI University's Foundation of Science programme in these two areas.

The foundation accepts applications for scholarships from students who have achieved good results in their Sijil Tinggi Pelajaran Malaysia and Sijil Pelajaran Malaysia examinations and who would like to begin their studies at UCSI in pre-university and degree programmes in May.

For details on scholarships and programmes, UCSI University will have open days from March 19 to 21, between 10am to 5pm, call 03-91018880 or visit www.ucsi.edu.my
