ABSTRACT

Info Kiosk Hornbill Tours & Travel is a system that has been developed to provide local and foreign tourist the accurate information of Hornbill Tours & Travel Company and more about Sarawak. This multimedia system has been develop using Macromedia Flash MX and Macromedia Dreamweaver MX which gives full control to users with other features such as text, picture, video, animation, music and audio. This system will increase tourist's interest to visit Sarawak because they can interact with the system and get more information about Sarawak as well as the beauty it offers.

Secondary data is gathered by researching on online articles, newsletters and magazines as well as other resources. The information gathered is to provide understanding about Information Kiosk and Sarawak. The primary data is gathered by conducting interviews. The motive behind these interviews is to gather information from the employees' about their company and public's point of view about Sarawak.

This information kiosk will be set up in public areas like shopping centers, bus station, airport, railway station and hotels. Hopefully, this system can encourage and attract more people to visit to Bumi Kenyalang - Sarawak.
