Excelling in the highest quality and subject-level education on a global stage has always been the desire of the UCSI University's Academics. The recent release of the QS World University Rankings by Subject 2022 is another testament to how far and wide UCSI education has been recognised and accepted worldwide. With our continual focus on academic reputation, employer reputation, and quality publication, let us watch this space for future developments – apart from these 8 global excellent courses above, more courses with high scores are in the pipeline to achieve similar accomplishments.
