DE INSTITUTE OF CREATIVE ARTS AND DESIGN

UCSI University's De Institute of Creative Arts and Design - or better known by its acronym ICAD - is an exceptional place to learn and explore the visual arts, art history, and art education.

Catering to the needs of the rapidly changing creative industry, ICAD offers unique art, fashion courses, multimedia and web design programmes that seek to equip students with fundamental knowledge, creativity and competencies needed in today's dynamic marketplace. Under the tutelage of experienced academics and established fashion designers, students are schooled in industry know-how and continue to hone their creative growth and expression, as well as, intellectual challenge.

UCSI UNIVERSITY

UCSI University is a vibrant community of learning and scholarship. At present, more than 12,000 students study at the University. Over the years, students from 110 different countries have studied at UCSI University, making the campus a melting pot of culture and diversity.

As one of Malaysia's first private universities, UCSI University has long impacted the national higher education landscape and the University continues to do so with its wide range of undergraduate and postgraduate programmes.

Associate. Prof. Dr. Luqman Lee
Director of ICAD

MESSAGE FROM DIRECTOR OF ICAD

My heartiest congratulations to the 2020, 2021, and 2022 graduates of De Institute of Creative Arts & Design (ICAD)!

It is always wonderful to welcome each new talent that comes to ICAD at the start of their first semester. There is much excitement, eagerness, and anticipation of the amazing things to come in their years of study. There is also great pleasure in viewing their transformation into the young creative talents whose works now grace the pages of this book I hold.

The years of the pandemic have been disruptive to the lives of many. Despite many challenges, ICAD students continue to be resourceful and demonstrate much creativity in navigating around obstacles. Their resilience and out-of-the-box thinking are simply two of the qualities that situate them favourably within the competitive global stage. These creative talents are suitably poised for success, and I am confident that each will be an asset to the creative industries.

The theme, ICAD 15, marks this year's graduation as special for it celebrates ICAD's 15th year of nurturing amazing talents. The Institute's creative curricula in art, design, fashion, and digital media at UCSI University Kuala Lumpur, has consistently ensured that our graduates have, for the last 15 years, been provided with the best opportunities in each of their respective fields within the creative industries. Testament to this, is ICAD's 100% employability rating by the Ministry of Higher Education in Malaysia every year. It is unsurprising then that ICAD has, for the first time this year, been ranked 230th globally in QS Art & Design.

It is clear from this book that these young talents and their innovative works speak on their own merits. We only aim to continue in this tradition of nurturing creative excellence and will continue to aspire to greater heights.

Hello, I'm Jiali, a lovely girl from China. I like art very much. In my eyes, art is constantly creating beautiful things, giving people visual beauty, and making others accept or feel some effect, which meets my design requirements. In society, art design also exists independently, and our aesthetic standards are constantly changing with many social factors. Therefore, I hope I can continue to learn and grow in this process and love it more on the road in the future.

Greetings! You can call me Jason or Jia Yi. I enjoy creating my own artwork, most of which involves character designs and digital art as well. I was inspired to create these from the influence of video game concept arts and its cinematic cutscene. To me, it was a rewarding experience to enjoy the cutscenes and animations during my gameplay experience especially the ones with spectacular storytelling. Hence I would like to take the role to inspire others with my own drawings and stories just like what the animators and artists had influenced me in the past!

Throughout the journey in the university, I have a clear direction on my ambition and realised what I want the most in the future. In my opinion, 3D Animation is the subject that required many efforts and luck (when rendering stuffs). It was time consuming and also difficult to persevere, but you definitely have fun when you able to learn new techniques and making your creation into 3D.

The concept "VALAK" a demonic nun, which is inspired from my favourite movie The Conjuring Series. There may be a "little devil" in everyone's heart, but it is guarded and suppressed in social life, and occasionally released. In the worst case, it may be violent, or it may be a prank. Most of the time, it cannot be released. Therefore, the collection is to express that the littler devil is an individual connected to our hearts.

The concept we want to convey is " mix and match ". There are no rules for dressing, you can wear it as long as you like. We hope that our customers can be bold in matching, if you like it, don't need to care about the worldly vision. Sometimes, is okay to be weird. Don't have to be same with others. Dressing is like expressing your personality, living habits and so on. So, we strongly encourage customers to mix and match to find their favourite and most suitable set of clothes.

FABIANNA BERTIN

BA (HONS) FASHION DESIGN WITH MARKETING

I've always been someone who enjoys creating designs with their own distinct shape or message. I enjoy making my own designs. Being inspired by unusual things like silhouettes, forms, shapes, texture, and colour. Finding solace in gentle colour palettes, creating patterns that may reflect emotion. When it comes to fabric experimentation and manipulation, I am constantly eager to learn new things since it provides me with fresh ideas and inspiration to create new styles and patterns.

JOANNE ANDREAS

BA (HONS) FASHION DESIGN WITH MARKETING

I am a passionate young designer who has been in love with the art world since the age of 4. I found my passion in fashion and decided to explore it deeper at a very young age, when I was only 8 years old. I love designing and I joined lots of art and fashion events back in my hometown, Surabaya. One of my biggest achievements is awarded as the Youngest Fashion Designer by Jawa Pos in 2010 and becoming the winner of Surabaya Fashion Parade in 2013. The inspiration of my designs mostly came from natures, buildings, and movies which concludes why I love travelling, sight-seeing and watching movies.

ONG JIE XI BA (HONS) FASHION DESIGN WITH MARKETING

My intention of creating this collection

-HOT.COLD.VICTIM- is to remind people to focus on
the inner beauty rather than the appearance. To
support the sustainable movement, part of the
collection is created by using secong-hand
materials, which is known as upcycling.

For me, Sindhi Patch work and embroidery is a preservation of one of the earliest known civilizations. These Raw designs are being inherited from one generation to the next over the past thousands of years. I will be able to preserve both the designs and also the technique by making these designs. I will be able to use old cloth pieces like cotton, denim and other fabrics to make these colorful designs that will be beneficial for the envi-ronment too.

BA (HONS) FASHION DESIGN WITH MARKETING

Hello I am Chi Yue! I like to design clothes that are more unique to the mass market but still wearable in daily life. I like to incorporate things and style that I like into my design, and let people see something that is more unique out of this. Starting from my love to draw clothes since I was a child, and wanting to make a career out of this, is the reason why I choose this course. I am not an expert of this industry yet, but I will keep learning and open to new opportunities when I still can.

New variants are continuously appearing and will not vanish in the near future. This issue appealed to me since the virus is still active ten years later, and we must learn to live with him and find our own personal balance. COWITHYOU was meant to depict future fashion while also expressing the fact that we are all fighters because we are still surviving in this earth ten years later while coexisting with the virus.
