Technical Services	Description	Package
Ultraviolet-Visible (Uv- Vis) Spectroscopic Analysis	❖ Spectroscopic analysis for flavonoids, sugar, polysaccharides or any other relatable content in the raw materials or extract	❖ Sample screening (RM 20) ❖ Rental per day (RM 250)
High Performance Liquid Chromatography (HPLC)	❖ General profiling with UV spectra of the major peaks in the chromatogram ❖ Qualitative and quantitative detection of marker/reference/bioactive compounds.	❖ Sample screening on PDA detectors (3 runs – RM 100) ❖ Rental per day (RM 400)
Gas Chromatography (GC)	❖ chromatography analysis separating and analyzing given compounds that can be vaporized without decomposition	❖ Sample screening on GC-FID (RM 100) ❖ Rental per day (RM400)
Atomic Absorption Spectroscopy (AAS)	❖ Spectroscopy analysis for the quantitative determination of chemical elements of the given sample	❖ Sample screening 3 runs (RM 100) ❖ Rental per day (RM 400)
Fourier Transformed Infrared Spectroscopy (FTIR)	❖ Spectroscopic analysis for the structural elucidation and quality of herbal and organic material products	❖ Sample screening (RM 45) ❖ Rental per day (RM 400)
