Founded in 2000, Beijing Geely University (BGU) is a private higher education institution located in the metropolis of Beijing. It is part of the Geely Group which presently operates Volvo Cars, and has stakes in Daimler, Proton and Lotus Cars to name a few. Officially accredited and/or recognised by the Beijing Municipal Commission of Education, Beijing Geely University (BGU) is a large coeducational higher education institution with approximately 1000 faculty and administrative staff and obliges around 30,000 full-time students.

BGU currently has 15 schools, namely Economy, Automobile, Technology Information, Journalism and Communication, Foreign languages, Modern Arts, Social Sciences, Psychology, Music and Dance, Economics Culture, Cinema and Television and Euro-American International studies. It also boasts two research institutes: Car Research Institute and Research Institute in Education. As part of a Fortune Global 500 companies, it is no wonder that BGU's students' employment rate is at 95%.

The Shibaaura Institute of Technology is ranked 48th in Times Higher Education Japan University rankings for 2018 (out of 775 institutions) and is the only private technology university in Japan to have been selected for the Top Global University Project.

SIT has developed SIT Research Vision, a plan to boost research output, to build a "center for generating knowledge and regional cooperation." SIT will pursue the two goals of establishing a world-class research hub through joint international projects and contributing to society through joint research with local governments.

One of their notable past president was the Nobel prize winner, Leo Esaki.
