### Areas of Industrial Collaboration

- Robotics
- Mechatronics
- Artificial Intelligence
- Image Processing
- Sentiment analysis
- Soft Computing

### Community Service Projects

- Development of Rapid in Situ Analysis for Fruits Quality using Miniature Handheld Spectrometer Combined with Machine Learning Calibration.
- Recognition of Human Face in Presence of Facial Expression and Decoration Variations using Spectra Imaging System and Deep Learning.
- Towards Affordable IoT-based Mass Fever Screening (MFS) System.

### Awards and Recognitions

- Best paper award at the International Conference on Engineering, Technology and Innovative Researches (ICETIR)
- Best Presentation award in the 2018 International Conference on Renewable Energy and Environment Engineering (REEE 2018)

### Consultancy Services

- Robotics
- Application of Artificial Intelligence
