WHAT OUR SCHOLARS SAY

James Koo Jian Wei, ACIA, AIAA

Co-founder of Kewdoo - a Malaysian tech startup that specialises in F&B management
Bachelor of Science (Hons) Actuarial Science

Malaysia Book of Records Inductee | YSEALI Academic Fellow |
MaGIC GAP Cohort 5 | Valedictorian, Class of 2019

Receiving a UCSI scholarship transformed my academic and professional journey. The University's culture of excellence helped me excel academically. And I enjoyed the freedom to explore unique, career-shaping opportunities.

I am profoundly grateful as I was able to focus solely on my studies and personal growth. I went on to record many fond memories, from being inducted into the Malaysia Book of Records to participating in international business case competitions in Singapore and Thailand. These experiences helped me expand my skills and network.

I also met my best friend at UCSI and we ended up co-founding Kewdoo, a tech startup that empowers over 200 merchants across Malaysia. Kewdoo was recognised as a top startup by MaGIC and SIDEC, graduating from their accelerator programmes. I'm glad that our friendship evolved into a shared vision for the tech industry.

None of this would be possible without UCSI's praxis approach that emphasises industry and community engagement. I've enjoyed invaluable support from UCSI's Breadboard Incubation Programme and this equipped me with the skills and know-how to launch and grow Kewdoo before I graduated.

Khiew Hoe Yean

National Olympian, Malaysia's #1 Swimmer
Bachelor of Computer Science (Hons)

Multiple national record holder (400m freestyle, 800m freestyle, 1500m freestyle, 200m backstroke, 200m individual medley, 4x100m freestyle relay, 4x200m freestyle relay, 4x100m medley relay)

I love representing Malaysia and being on the podium. But I know I can't beat Father Time and compete forever. That's why education is crucial for athletes like me. My UCSI scholarship equips me with firm foundations for a post-athletic future. I'm happy to be part of this dynamic learning environment and I'm glad that there are many national and state athletes here with me. We support each other and it helps to have people who know exactly what you're going through.

My professors and the University management are very supportive, particularly when I'm training or competing overseas. I enjoy the flexibility and trust to balance both athletics and my studies and for that, I'm grateful. My UCSI scholarship allows me to focus on what I do best - achieving results for Malaysia. I've broken four national records in the 400m, 800m and 1,500m freestyle, as well as the 200m backstroke, after joining UCSI and I'm looking forward to setting more milestones here.

Annice Lyn

Co-founder of Women Photographers Malaysia
Bachelor of Science (Hons) in Architectural Technology, 2015

2021 Forbes 30 Under 30 Asia inductee
2020 Prestige 40 Under 40 laureate
Award-winning photographer

Receiving a scholarship from UCSI was an incredible opportunity that empowered me to pursue my passion in both architecture and photography. I read Architecture and the programme taught me to appreciate the balance between precision and creativity - two elements that now guide my career as a photojournalist. Photography, like architecture, is a coalescence of technicality and artistry.

My time at UCSI showed me the importance of perseverance and growth, values I aim to pass on to the next generation of creatives. UCSI fosters a space where students are encouraged to push boundaries, think critically and transform visions into reality. I'm proud to have been a part of this transformative journey. I've had many fond memories here and I'm incredibly grateful to UCSI founder Dato' Peter Ng and Shannen Choi for the opportunities I've enjoyed at UCSI.

Suzanne Ling Sook Shian

Co-founder of PichaEats - - an award-winning social enterprise that empowers refugees
Bachelor of Arts (Hons) in Psychology

2018 Forbes 30 Under 30 Asia inductee

I'm forever grateful to be a full scholarship recipient from UCSI, which not only supported me financially but also provided opportunities for personal and professional development.

During my time at the University as a scholar, I was empowered to organise leadership events, engage with industry leaders and gain real-world workplace exposure. I also participated in meaningful volunteer work, building skills and connections that laid the foundation for co-founding a social enterprise after graduation. Beyond financial aid, Shannen Choi and the UCSI University Trust genuinely invest in the growth and success of their scholars.

I am deeply grateful for the scholarship and the opportunity. Thank you, UCSI, for empowering me and making me who I am today."
