

FACULTY OF
APPLIED
SCIENCES

The Student Welfare Committee (SWC) in the Faculty of Applied Sciences (FAS) consists of 7 academic staffs and five student representatives. The main function of SWC is to assist and counsel FAS students in learning, teaching, administration and well-being. SWC also provides a proper channel where students can raise their issue, feedback and suggestion to faculty administration through Faculty Advisor-Advisee Programme and student representatives in SWC board. Other annual activities organized by SWC include the Alumni Career Talk and Self-development Workshop. The ultimate aim of these activities is to enhance student-lecturer interaction as well as students' personal development and inspiration during the course of their study in the university. To assist students is always our priority!!
